Subject: RE: TI roads near future RGV

I will answer the easy question first...

2. The CTIMR roads are maintained by the FM&E using the CTIMR contract. Some are regularly maintained on a cycle, others as needed.

Subject: RE: TI roads near future RGV

Green – FM&E maintains

Other – BP Real estate has access to use road, FM&E does not maintain. Reasons why are various.

(b) (6), (b) (7)(C)

Here is the TI road maps in relation to the towers. Please keep in mind that we had these maps made in the beginning of the project so it has all the primary and alternate sites from the original site list and not the tertiaries and so forth. It will provide you an idea of what is in the area of the sites though. If you want a more detailed view of site/area or when you get ready this modified, let me know.

By the fence, there is sometimes up to 3 roads – 1 on the levee, 1 south of the fence and 1 north of the fence. TIMR maintains 1 of them and sometimes it is the one on the levee. The design proposes accessing on an adjacent road to not impact the levee. We can always get more maps (there is a lead time) or I can look it up and share my screen so you can see as well.

(b) (6), (b) (7)(C)

Per our discussion please forward the below info to (b) (6), (b) (7)(C)

Please see the attached file that shows the photos to support the fact there is tremendous tree growth along the fence line at the (b) (7)(E) TARS site.

The owner of the property along the fence has not allowed Harris personnel to access the area to trim and/or remove the trees that are growing into the fence.

(b) (7)(E), (b) (5)

Please contact the owner to allow our onsite maintenance crew to access the property. (b) (5)

Subject: Tree growth along the fence line at EAG.

(b) (6), (b) (7)(C)

Per our discussion please forward the below info to [REDACTED] (b)(6), (b)(7)(C)

Please see the attached file that shows the photos to support the fact there is tremendous tree growth along the fence line at the (b) (7)(E) TARS site.

The owner of the property along the fence has not allowed Harris personnel to access the area to trim and/or remove the trees that are growing into the fence.

See below. Today was the day we needed a response to the request below.

As stated in the email below, we will experience a schedule slip.

I ask for an answer by Monday morning and we will assess impact.

Regards,

(b) (6), (b) (7)(C)

Subject: RE: Draft (b) (7)(E) risks

I did a similar exercise using (b) (7)(E) risks and entered into the PRD draft (attached) using the new risk categories.

The risks in green are the entries that match what (b) (6), (b) (7)(C) and (b) (6), (b) (7)(C) have contributed.

FYI- the risk category changes are as follows:

<u>Discontinue</u>	<u>Migrated To</u>	
External Priority Factors	External Entity Compliance	(b) (5)
Regulatory Compliance	External Entity Compliance	

Hazardous Waste	Latent Conditions
Latent Conditions /Underground Water /Utilities/Sub-surface Rock	Latent Conditions
Architecture/Engineering	Design

This came in a few weeks ago and dropped off my radar. These are photos of road construction right south of the fence in (b) (7)(E). It appears our Mexican friends have built a road very close to the fence in (b) (7)(E). [It also appears that (b) (7)(E) likes to take photos]. Since we have already had several cross border issues result in M&R repairs, I wanted to bring this to your attention. Please let us know if your engineers have any concerns about what is shown in the photos. Thanks.

Subject: East of (b) (7)(E) POE

(b) (6), (b) (7)(C),

I have taken some pics of the landing mat fence on the east side of the (b) (7)(E) POE and on towards the east where the old fence meets the new PF 225, Bollard fence. There is new construction going on in Mexico, it appears that they are improving or widening a paved road that runs parallel to the border fence and leads to the POE. These improvements are encroaching on the border fence on the south side (b) (7)(E), (b) (5)

(b) (6), (b) (7)(C) In some places the new road is above the ground level of the border fence and in different places the new road is well below the border fence. Due to this new construction, they have been digging as close as two to three feet from the fence and digging down below the fence up to 12 feet. This new problem in this area has compounded an existing problem where the border road on the north side of the fence has built up over time and has caused some dirt to "spill over" into Mexico.

This issue was first observed by a National Guardsman that brought it to me attention. When (b) (6), (b) (7)(C) and I had an opportunity, we drove out to the site and I later returned to take the pictures that I am attaching in this email.

Please let me know if there is anything more I can do to bring light to this issue.

I will send another set of pics.

This came in a few weeks ago and dropped off my radar. These are photos of road construction right south of the fence in (b) (7)(E). It appears our Mexican friends have built a road very close to the fence in (b) (7)(E). [It also appears that SDC likes to take photos]. Since we have already had several cross border issues result in M&R repairs, I wanted to bring this to your attention. Please let us know if your engineers have any concerns about what is shown in the photos. Thanks.

I have copied it to the body of this response. Also, (b) (6), (b) (7)(C) may have additionally commentary.

Team,

Below is a review of the sites selected by comparing the memo coordinates and (b) (6), (b) (7)(C) clarifications from 4/27/16 email with the last Design AOR sets that we have received. The following is my response to the selection of the coordinates on the memo.

FOR the purpose of responding to OTIA regarding the selected sites:

(b) (7)(E) - No issues.

(b) (7)(E)

- (b) (7)(E), (b) (5)

- (b) (7)(E) Crossover - (b) (6), (b) (7)(C) clarified and the selection is the Alternate site coordinates.

- (b) (7)(E) Military - no issue.
- (b) (7)(E) - no issue.

(b) (7)(E) -

- (b) (7)(E) - (b) (6), (b) (7)(C) clarified that the selection is the alternate site; no issue.

(b) (7)(E)

- (b) (7)(E), (b) (5)
- (b) (7)(E) - NO ROE on Tertiary, which is what OTIA clarified as the selection. The memo showed the original Alt coordinates which we have access to the ROW.

(b) (7)(E)

- (b) (7)(E), (b) (5)
- (b) (7)(E) - has been corrected by (b) (6), (b) (7)(C) to the design shift recommendation, (b) (7)(E), (b) (7)(E) - no issue.

(b) (7)(E)

- (b) (7)(E) Road - (b) (7)(E), (b) (5)

(b) (7)(E) - No Issues.

(b) (7)(E) - No Issues.

Thank you,

(b) (6), (b) (7)(C)

Request you obtain DAC approval for this funds request, which is needed to bridge the gap between our current fence & gate repair contract and the new CTIMR contractor in El Paso Sector. IAW the CTIMR contract, the new contractor will take over fence breach repairs and gate maintenance after 30 April. Due to a surge in breaches, our existing funding is expected to run out earlier than previously estimated. An additional \$147,758 is urgently required to provide for breach repair thru 30 April, and also repair the tracks and trucks on three critical gates.

Please let me know when DAC approval is obtained.

Subject: Missed call
Date: Monday, April 08, 2013 6:55:24 PM

I just sent the information I have about the ROM for Andrade. I am betting that is why you called me earlier. I didn't see the missed call until after I got home and had gone for my bike ride (still trying to fight mother nature and father time).

If you need anything else, or that is not what you are looking for, then I can generate a new ROM very quickly based on a phone call to (b) (6), (b) (7)(C) to get the updated information.

Talk to you tomorrow.

To: (b) (6), (b) (7)(C)
Subject: RE: Do you have the Andrade ROM for Phase 1 and 2? Can I get a copy?

All of the ROM estimates I have were for the design/build approach. After we went to the design/bid/build approach then the USACE and Baker prepared estimates for base/option 1/option 2. USACE (of course) kept their IGCE and the actual bid information close to their vest and I do not know what those are now. Attached is the ROM I prepared for the base bid and option 1 (the design/build approach did not include anything west of the fence collapse, and option 1 is to the east of the collapsed area to Monument 207). This ROM does not reflect the actual costs presented in the Bid by CJW.

As I understand it, (b) (6), (b) (7) asked (b) (6), (b) (7)(C) to provide an updated estimate based on the existing IGCE for options 1 and 2 as modified by the actual bid information provided by CJW. It should not be any new real work, just dusting off existing information.

Subject: PR Approvals for TI...

Gents:

We received **\$8m** in FY13 funds last week and below is our request to get approval from OTIA (b) (6), (b) (7)(C) and the new Review Approval Board (b) (6), (b) (7)(C):

- (1) PR for WA1 #20053725; **\$2.1m** (this will replenish the contract for the remainder of the contract period.). This PR was approved for full funding yet we were required to reduce the contract value from \$4m to \$1.9m, due to Sequestration. **ASSIGNED TO** (b) (6), (b) (7)(C)
- (2) PR for WA4 #20053726; **\$3m** (this will replenish the contract for the remainder of the contract period.). This PR was approved for full funding yet we were required to reduce the contract value from \$6m to \$3m, due to Sequestration. **ASSIGNED TO** (b) (6), (b) (7)(C)
- (3) PR for Heavy Equipment #20074476; **\$900k** (this will replenish the contract for the remainder of the contract period.) This PR was approved for full funding. This PR was approved for \$600k prior to Sequestration; the increase from \$600k to \$900k is due in large part to the CTIMR WA2 protest received 5/13/13 and to fund required equipment through 9/30/13. **ASSIGNED TO** (b) (6), (b) (7)(C)
- (4) PR for Tucson Sector Vegetation Control/Debris Removal (**PR #20075143**); **\$1.3M** (this will fund 3 months of requirements during monsoon season – CTIMR WA2 protest and stop work issued 5/13/13. Will be contracted through RWA via USACE POCA contract. **BEING PROCESSED BY USACE**
- (5) PR for Tucson Sector Drainage Gate Opening (**PR #20075144**); **\$95k** (this will fund 12 months gate open/close requirements to protect TI Fence assets during monsoon season – CTIMR WA2 protest and stop work issued 5/13/13. Will require a new contract via CBP PROC.) **ASSIGNED TO** (b) (6), (b) (7)(C)...
HE'S NOT IN OUR BRANCH BUT CC'd
- (6) PR for Tucson Sector Lighting and Electric (**PR #20075145**); **\$35k** (needed by June to extend lighting

and electric M&R for 3 months – CTIMR WA2 protest and stop work issued 5/13/13. Will be contracted through CBP PROC.) ASSIGNED TO (b) (6), (b) (7)(C)...SHE'S NOT IN OUR BRANCH BUT CC'd

- (7) PR for Yuma Sector Fence, Gates, Roads, Veg/Debris, Drainage/Grates (PR#20075146); \$350k (needed to fund all TI M&R requirements for 3 months - CTIMR WA2 protest and stop work issued 5/13/13. Will be contracted through CBP PROC.) THIS IS A NEW REQUIREMENT THAT REQUIRES A SOW, IGCE AND MARKET RESEARCH FROM THE PMO
- (8) USFS IAA (PR #20060133); \$220k (requirements to maintain roads in TCA (b) (7)(E) and provide/maintain access roads during monsoon season – CTIMR WA2 protest and stop work issued 5/13/13.) ASSIGNED TO (b) (6), (b) (7)(C)

Let me know if you have any questions. Appreciate getting these approved.

When: Thursday, June 06, 2013 1:00 PM-2:00 PM (UTC-05:00) Eastern Time (US & Canada).

Where: (b) (7)(E)

Importance: High

PMs,

(b) (6), (b) (7)(C) has limited time available tomorrow on his schedule and I wanted to make sure we get the TI Inventory updates in front of him for the Black Hat review I described yesterday during our branch staff mtg.

Review/refresh on the Q&A and comments from (b) (6), (b) (7)(C) and (b) (6), (b) (7)(C) below. Provide (b) (6), (b) (7)(C) your most up-to-date version of the TI Inventory for your sector(s) Thursday morning for our 1-hour review with (b) (6), (b) (7)(C) in the afternoon.

Focus on the improving the quality of the information, especially the "NOTES" section that should explain to an average reader (me) the basis for the estimate, how unit costs were

developed, source of information used (if available).

At this point your numbers should be solid whether you're at 80/20 or 90/10 confidence level. The Q&A and comments pasted below will provide you a good guide to the focus areas for your efforts, and this will be our focus on the review.

Thanks,

(b) (6), (b) (7)

Subject: RE: TI Inventory

(b) (6), (b) (7)(C) and I met this morning to look at the latest report of TI Inventory from (b) (6), (b) (7)(C). We have the following comments from our review. Responses to (b) (6), (b) (7)(C) questions are embedded into his questions below.

(b) (5), (b) (7)(E)

I have embedded responses to (b) (6), (b) (7)(C) questions below. Some of the responses need corroboration by (b) (6), (b) (7) or maybe some additional input from (b) (6), (b) (7)(C) but answers are from (b) (6), (b) (7) and I based on our involvement in the process.

(b) (6), (b) (7)(C) and I hope this information helps and we stand ready to provide additional information or reviews as required. We also think that the spreadsheet should be modified slightly. I met with (b) (6), (b) (7)(C) and he needs some guidance from (b) (6), (b) (7) before he will make any major changes to the spreadsheet. (b) (6), (b) (7)(C) and I need to meet and compare our thoughts on how the spreadsheet should be "tweaked".

(b) (5)

Overall, this is very good. Great insight into what is out there and what we project as costs.

I know that you all are working hard and it is appreciated. We just need to make sure that the numbers “jibe” and we can defend the costs.

This is much closer that we have been in years. Keep up the good work and let’s set up a meeting to “murder board” this next week.

Thanks.

Sorry I didn't have time yesterday once I got back. I just sent it out. I am going to do the Beneficial Occupancy Date document (BOD) today. Who do I address the letter to for the CBP? Most of the letters I do for the EC Sector go to Lauguna Nigel.

Gentlemen:

Here is my last daily on the Andrade Fence Repair with photos. As you can see by the one photo the fence is standing on its own without any support. We are still set to conduct the final inspection on 3 April at 1000.

Gentlemen please pass this correspondence on to Mr. (b) (6), (b) (7)(C). Attached is the Occupancy and Transfer of Property Letter from USACE and its contractor, (b) (6), back to Customs and Border Protection effective 3 April, 2013. We have scheduled three warranty inspections, the first in August, 2013, the second in January, 2014, and a final inspection in April, 2014. I will send out remainders when these inspections come due. I appreciate your support and cooperation in bringing this project to a successful closure and end.

I apologize for the timing of this request since it is within one week of the expected travel, but the trip just came together today. The trip is to be with (b) (6), (b) (7)(C) as the new contractor mobilizes and begins work at the Andrade fence collapse area, and then to also be with the structural engineers as they do their assessments of the bridges in the A-1 area prior to all the roadwork by the military.

I have coordinated the trip with (b) (6), (b) (7)(C) about my presence in YUM and with (b) (6), (b) (7)(C) about the A-1 trip.

I would like to invite you to a get together at LMI this Monday (12/17).

The invite is for 11am. We will be meeting at the Ignatius Conference room.

The invitation is for a get together with CBP and LMI to celebrate the good works that you all have performed for BPFTI.

The get together commences at 11am, so please be prompt.

Also, please confirm with me that you will be in attendance.

Thank you.

[Travel Request- \(b\) \(6\), \(b\) \(7\)\(C\) TCA- 141102.docx](#)

(b) (6), (b) (7) – based on our telephone conversation last Thursday, I have two separate travel requests. Attached are the two separate request forms but the request is summarized below.

Travel to TCA between Sunday Oct 26 and Thursday Oct 30. This trip is to support ongoing activities in TCA and ELC so that ongoing activities do not slip because of critical inspection points. The repair activities at (b) (7)(E) gate repair requires inspection of the foundation before concrete is poured. Also, the WG staff is self-performing the (b) (7)(E) project and on-site support is required while (b) (6), (b) (7)(C) is traveling to Laguna to support other BPFTI priorities. This trip requires travel less than one week from now so the estimated cost is a little more than the other trip.

Travel to TCA between Sunday Nov 2 and Thursday Nov 6. This trip is to visit CAG and AJO with (b) (6), (b) (7) to view damage done to roads and fences from the recent monsoon season. This trip is required so that remedial activities can begin asap to bring the TI back to usable condition asap.

To: (b) (6), (b) (7)(C)
Cc: (b) (6), (b) (7)(C)
Subject: Engineering Support for (b) (7)(E) Train Gates

Gentlemen – just a quick note to coordinate on-going activities in your separate AORs.

My travel to support the final inspection of the (b) (7)(E) remedial actions and the concrete pours at the (b) (7)(E) never approved so I will not be out this week.

As of today, the (b) (7)(E) gates should be essentially complete by Friday as scheduled. I notified KBR and (b) (6), (b) (7)(F) that I would not be in TCA this week and (b) (6), (b) (7)(F) and KBR will be scheduling the final inspection for Monday with (b) (6), (b) (7)(F)

I still think I should come out to oversee activities at the (b) (7)(E) project before they get to the LWC to verify the approach and construction techniques.

As of today, KBR is still looking for a structural engineer licensed in AZ to do the study at the Train gates.

Path forward:

- (b) (6), (b) (7)(F) performs the final inspection at the (b) (7)(E) gates
- (b) (6), (b) (7)(F) and I continue telephone conversations as necessary to coordinate the work at the (b) (7)(E) (b) (6), (b) (7)(F)
- We wait to see if KBR locates an engineer in the next week or so to schedule a trip for me to coordinate with (b) (6), (b) (7)(F) on the WDR project and to meet the engineer at the (b) (7)(E) train gates to begin that work effort.

As always, don't hesitate to contact me if you need any support or just want to discuss requirements in your AOR. I know that (b) (6), (b) (7)(F) will be starting the (b) (7)(E) Secondary Fence soon and that I should meet with the WG staff to facilitate the construction techniques and approach, but I understand that requirement will be after the first of the year.
